

**TOWN OF NEWBURGH RECEIVES \$3.5 MILLION FOR INFRASTRUCTURE REPAIRS
THROUGH CONGRESSMAN MALONEY'S COMMUNITY PROJECT FUNDING**

“After months of working with local leaders to identify projects in our communities, I’m proud to announce this year’s selection of community projects from across the Hudson Valley,” said **Rep. Maloney**. “From repairing Newburgh’s pier to funding new health care facilities and educational programs across our communities, these projects will bring over \$34 million home to improve life for folks in the Hudson Valley.”

As Supervisor of the Town of Newburgh, I want to thank Congressman Maloney for selecting the infrastructure repairs in the Colden Park section of the Town as one of the Community Projects to fund. These \$3.5 million will be utilized for the much-needed replacement of water lines in Colden Park.

Gil Piaquadio
Town of Newburgh Supervisor
